# Flowers such as these bring Joy to you

## Kunderd's Colossal Zinnias

THESE are the Colossal Zinnias I am including in my sensational combination bulb and seed offer. The illustrations on this page are even a bit smaller than the actual flowers which often measure from five to six inches in diameter. The colors are simply exquisite and I am offering you a generous size packet of these selected zinnia seeds in mixture. You may plant them outdoors in May and have flowers until frost. Remember this is just one part of this magnificent "Collection Offer" for \$2.

Dear Flower Friend:

This is my last spring offer during my Golden Anniversary year and it is the most unusual and attractive one I have ever offered. There are three special features which I desire to call your attention to—

First—The 75 Gladiolus Bulbs

These are all Kunderd Introductions, varieties which are listed in my catalog and many of which are acknowledged to be the choicest in the world.

Second—My Gladiolus Seed

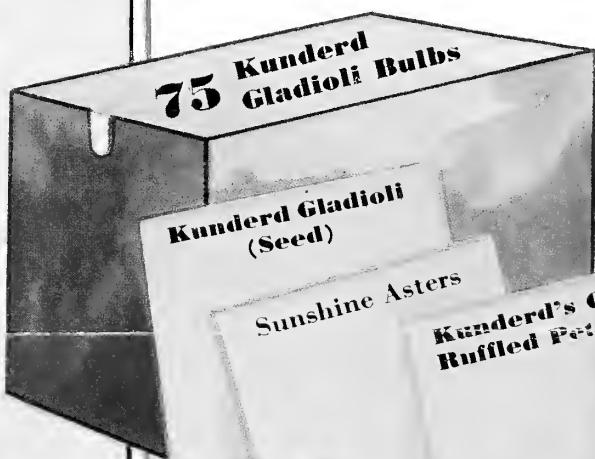

Never before have I offered for sale seed from my famous planting of gladioli. From my seed came those fine varieties which are now famous. Such magnificent kinds as Mrs. Frank Pendleton, Crinkles, Purple Glory, Alice Tip-lady, Dr. Nelson Shook and hundreds of others came from my seed. Among the seed, included in this Collection, may be the finest gladioli of all times. So precious are they that it would be difficult to even place a value upon them.

Third—My Flower Seed

In addition to the Gladiolus Seed are seven packets of choice flower seed, including Regal Lilies, Kunderd Colossal Zinnias, Scabiosas, Petunias, Larkspurs, Sunshine Asters, a new novelty, and Chinese Forget-Me-Nots. I know you will agree no finer choice of flowers could be made for summer planting.

To those whose names appear on my list I am offering the entire collection for \$2. I will fill orders as quickly as they are received but I reserve the right to refund your money if my stocks become exhausted. I therefore encourage you to send your orders as soon as possible. I assure you of the usual high Kunderd quality.
